

KRITAGYA KANDPAL

AI & Automation Engineer | Subject Matter Expert | Data & Content Specialist

8130859152 | ucss.kriatgya@gmail.com | South Ex, New Delhi | linkedin.com/in/kritagya-kandpal | github.com/kavikbir

PROFESSIONAL SUMMARY

Computer Science graduate (Delhi University) with hands-on expertise in AI engineering, LLM integration, prompt engineering, and automation. Skilled at translating complex technical concepts into clear, engaging content. Proficient in Python, SQL, Power BI, JavaScript, and REST APIs. Experienced in content creation, data analysis, and building AI-powered tools. Seeking entry-level roles in software development, data analysis, AI/ML, technical writing, or digital marketing.

WORK EXPERIENCE

Freelance Automation & Chatbot Developer | Selfridges & Co

Oct 2024 – Jan 2025 | Remote

- Designed and deployed AI-powered chatbots integrating OpenAI and Claude APIs to automate customer workflows, reducing response time by 40%.
- Engineered prompt strategies and built context-aware LLM agents; documented technical processes and internal AI usage guides.
- Performed end-to-end testing, debugging, and API integration using Python and REST services.

Customer Service Advisor | CHEGG Solutions

2024 – 2025 | Remote

- Resolved complex academic and technical queries across disciplines; maintained 98%+ accuracy in data entry and record management.
- Simplified and explained difficult technical and academic concepts to learners — directly transferable to SME and training roles.

Freelance Technical Content Writer | Self-Employed

2023 – Present | New Delhi

- Produced 50+ technical articles on AI, machine learning, and programming for audiences across experience levels.
- Managed research, SEO optimisation, editing, and publication workflows; used tools including Canva, Notion, and Google Workspace.

EDUCATION

Bachelor of Science – Computer Science | Dyal Singh College, University of Delhi

Expected 2026

Relevant Coursework: Data Structures & Algorithms, Database Systems, Machine Learning, Software Engineering, Statistics

SKILLS

AI & Machine Learning: LLM Integration, Prompt Engineering, OpenAI API, Claude API, NLP, Machine Learning, Automation, Rapid Prototyping

Programming & Dev: Python, JavaScript, HTML, CSS, REST APIs, GitHub, Git, Replit, VS Code

Data & Analytics: SQL, Power BI, Microsoft Excel (VLOOKUP, Pivot Tables), Google Sheets, Data Visualisation, Statistical Analysis

Productivity & Tools: Google Workspace (Docs, Sheets, Slides), MS Office Suite, Canva, Notion, Trello, Slack, Jira (Basic)

Content & Communication: Technical Writing, Curriculum Design, SEO Basics, Blog/Article Writing, Research & Fact-Checking

Soft Skills: Critical Thinking, Problem-Solving, Teamwork, Time Management, Effective Communication, Adaptability

PROJECTS

Government Job Emailer Bot – Automated Python scraper that scrapes govt. job portals daily and emails personalised listings to subscribers.

Personal Portfolio Website – Responsive portfolio built with HTML, CSS, JS showcasing AI and automation projects. personalkritagya.netlify.app

Chatbot Prototypes – Developed multi-turn chatbots using Claude and GPT APIs demonstrating advanced prompt engineering and API integration.
